DHBW Mannheim
Bachelor of Science
Business Informatics
Focus: Consulting

08/2011 – 05/2014

JBS Pinneberg
Highschool
Media Science
Grade 2.2

Skills

Languages

JavaScript

Python

Elixir

Java

SQL

Technologies

Kubernetes

Docker

Jenkins

PostgreSQL

NodeJS

Experience

08 – 11/2017 DevOps System Design

Assessed various DevOps concepts for in-house use. Main tasks included system architecture and business process prototyping and project management for a distributed cross-functional team that is based in China and USA. (IBM CDL – Contact: Ping Louise Li - Shanghai)

02 – 05/2017 Microservice Messaging Architecture

Joined the team for kickoff phase of a digital transformation project for the insurance industry. My main objective was to design different microservice architecture proposals and evaluate different messaging concepts.

(IBM GBS – Contact: Jan Schmitz-Hermes - Berlin)

08 – 11/2016 Backend System Migration

Assistant to lead architect and lead test manager in a SAP system migration project. Mediated between client and IBM developers, architects, and product owners. Wrote paper on the advantages and disadvantages of DevOps methodologies in distributed development teams.

(IBM GBS iX – Contact: Ivan Zaytsev - Munich)

01 – 05/2016 IoT Showcase Prototyping

Designed and implemented a cognitive automotive IoT showcase written in NodeJS and AngularJS built on Bluemix and Watson Services. The usecase was a fully connected fleet management system for a carsharing company. Achieved the state of a functionally running end-to-end prototype that gathered data from cars via an ESP8266 and sent it to the backend for analysis and visualization.

(IBM Watson IoT – Contact: Tobias Lindener - Hamburg)

Achievements & Qualifications

12/2016

Professional Scrum Master I Certification

11/2016

IBM Manager's Choice Award Award

Katrin Hagemann

11/2016

Symbioticon Hackathon

Attendee. Event was part of the FI-Forum 2016.
